D. PETUNJUK

Petunjuk pengerjaan final project:

1. script-script diatas akan lebih optimal dijalankan menggunakan integrated web server WAMP versi 1.7, dan vertrigo.
 2. silahkan kerjakan web anda sampai selesai dan semua link atau menunya bisa digunakan.
 3. lengkapi dengan gambar/gambar atau feature-feature yang lainnya.
 4. desain boleh diubah tanpa mengubah substansi sistem yang sudah saya tentukan.
 5. lengkapi sistem anda dengan script-script yang anda ketahui seperti :
 - script php/javascript untuk validasi data
 - script untuk menampilkan data tabel dalam bentuk paging
- *nomer 4-5 : optional*

Petunjuk pengumpulan tugas akhir :

Tugas akhir dikumpulkan dalam bentuk CD + cover (judul web, nama, nim) :

Hasil yang dikumpulkan adalah :

- Web,
- gambar-gambar yang digunakan,
- basisdata (in sql form) serta
- file pdf/rtf yang berisi :
 1. penjelasan tentang system. (capture tampilan tiap halaman + script)
 2. kritik, saran,pesan+kesan anda selama mempelajari pemrograman web di STMIK El Rahma.

Selamat mengerjakan semoga sukses

Best regards,

Asih Winantu,S.Kom
